

California's 2020 Census Efforts

Census in California

- An accurate count is one in which every person is counted once, only once, and in the right place.
- California faces the greatest barriers in the nation for the Census, reaching more than 13.5 million households and motivating the hardest-to-count to respond.
- The California Complete Count – Census 2020 is a statewide outreach and awareness campaign for the 2020 Census.
- California's efforts complement the U.S. Census Bureau's strategy, with focus on the hardest-to-count Californians.

Why is the 2020 Census important?

-  Every Californian counts
-  It's about fair representation
-  It's your civic duty
-  It's about redistricting
-  You are the expert – your responses help
-  Your data are confidential

How is the Census data used?

-  To advocate more resources for community members.
-  To ensure public safety and plan new schools and hospitals.
-  To decide where to open companies and businesses, which create jobs.
-  By law, the U.S. Census Bureau cannot share the data with immigration or law enforcement agencies or allow it to determine eligibility for government benefits.

How can you make a difference now?

The California Census Office is hosting a kick-off event on April 2, 2019 at the State Capitol in Sacramento to jump-start the public awareness of the 2020 Census.

Here's what you can do:

-  Host your own "April 2019 Kick-Off" event
-  Pass a proclamation or resolution supporting the census
-  Send out informational alerts to constituents
